

Central Intelligence Agency,

COMPT 87-1184

Washington, D.C. 20505

3 September 1987

Mr. Keith Hall
Select Committee on
Intelligence, Staff
United States Senate
Washington, D.C. 20510

Dear ~~Keith~~ Keith,

As you will recall, during the recent briefing on occupational banding you asked for our comments on the HPSCI proposed Presidential Commission to examine intelligence personnel systems, and for some additional data on the conversion of our secretaries and communicators from GS to banding. The data you requested on the secretarial and communicator conversions to banding is attached.

The Committees will be receiving a letter from the DCI regarding the Community's views on the Senate and House versions of the Intelligence Authorization Act for Fiscal Year 1988. In the meantime, we would appreciate your support for the following modifications to the HPSCI proposal on personnel:

- Ideally we believe the HPSCI proposal to establish a Presidential Commission should be deleted. An acceptable alternative would be to substitute for the commission an independent, professionally managed study, not to exceed three months, culminating in the issuance of a classified report.
- The language in the Classified Annex should be modified to make clear that routine procedural or policy adjustments in our personnel management system can continue to be implemented without prior Committee review.

If you need any further information on this, please do not hesitate to call me at any time.

Sincerely,

Daniel A. Childs, Jr.
Comptroller
